

# ADVANCED FULFILLMENT

## *STREAMLINE FULFILLMENT TO REDUCE ERRORS, GENERATE MORE TRANSACTIONS, AND INCREASE PRODUCTIVITY*

Advanced Fulfillment is part of Acumatica Distribution Edition and integrates with the Acumatica Commerce Edition to help you accurately and efficiently pick, pack, and ship your orders.

### ADVANCED FULFILLMENT CAN HELP YOU:

- **Reduce errors and improve customer satisfaction.** Mistakes in order fulfillment lead to costly returns and lower customer satisfaction. Efficient barcode scanning and verification of picked items eliminate over-shipments, under-shipments, and shipping incorrect items.
- **Automate fulfillment processes and improve productivity.** Automating routine tasks eliminates the risk of people skipping important steps, increases productivity, and reduces training costs.
- **Leverage hands-free operation.** Preprinted smart scan sheets allow warehouse workers to perform all necessary system interactions with just a scanner—a handy feature for those who must wear gloves. For example, scan sheets include commands such as complete shipment, next/previous box, and remove item. Audible and visual indicators and warnings provide immediate feedback when incorrect items or more units than purchased are scanned.
- **Support lot and serial number tracking.** Serial and lot numbers are scanned and printed on the pick list and packing slip, so there can be no mistake about what was picked and shipped.

### EFFICIENTLY HANDLE ORDER FULFILLMENT

- **Improve item picking.** Pick for multiple orders at once. Complete picking from inventory in a single pass.
- **Choose preferred packing mode.** Pack items and generate mailing labels automatically based on package weights, or let the system tell you the required packaging for specific items.
- **Provide superior customer service.** Ensure timely pickup and delivery through carriers. Track all packages automatically. Notify customers of shipment progress through each stage of order fulfillment.
- **EDI support.** Advanced Fulfillment works with third-party EDI software for full EDI compliance, including 856 Advance Ship Notice (ASN), to electronically communicate the contents of a shipment.

### KEY BENEFITS

#### OPTIMIZE ORDER FULFILLMENT

- Streamline order completion by picking from inventory, packaging items, and preparing for shipment in one process

#### INCREASE PRODUCTIVITY

- Automate manual tasks that often lead to errors and rework
- Perform more transactions with fewer errors and fewer employees
- Reduce training costs and allow seasonal workers to become productive more quickly

#### INTEGRATE INVENTORY MANAGEMENT

- Identify in-stock/out-of-stock items before picking
- Use barcode scanners to update inventory and ensure that all items are picked and packed

#### IMPROVE THE CUSTOMER EXPERIENCE

- Use an automated, streamlined process to pick, pack, and ship the right product at the right quantity
- Offer a smooth return process by automatically including packing slip, instructions, easy return options, and return labels

### ADVANCED FULFILLMENT FEATURES AND CAPABILITIES

#### PICK

- Generate pick lists and packing slips.
- Use barcodes to speed up the picking process.
- Barcodes on pick lists prevent picking items not included in the order.

#### PACK

- Provide adequate package size and packing material to ensure safe transport.
- Support barcodes and lot/serial numbers for accurate order completion.
- Easily correct errors in amount, weight, items, and more.
- Integrate with digital scales and printers to automatically weigh and print labels and packing slips.

#### SHIP

- Select shipping provider: UPS, USPS, FedEx.
- Ensure prompt pickup through your preferred carrier.
- Automate shipment label generation.
- Set up automatic tracking on all shipments.
- Notify customers of shipment progress through each stage of order fulfillment.

Scan bar code and scan quantity to generate a pick list, hands-free.

The screenshot shows the Acumatica ERP interface for a pick list. The top navigation bar includes 'Acumatica', 'ORGANIZATION', 'FINANCE', 'DISTRIBUTION', 'CONFIGURATION', 'SYSTEM', and 'HELP'. The main content area displays a pick list for a shipment with the following details:

Shipment Number	Shipment Date	Customer ID	Customer Name	Warehouse	Contact	Ship Via
000222	1/13/2017	ABARTENDE	USA Bartending School	WHOLESALE		

No.	Location	Item	Unit Weight	Unit Volume	UCM	Qty.	Qty. Picked
1	RF1C01L01	301CMPST01 Std omp #1	0.00	0.00	PC	3.00	
2	RF1C01L01	301CMPST02 Std omp #2	0.00	0.00	PC	2.00	

### THE ACUMATICA ERP DIFFERENCE

Acumatica delivers a full suite of integrated business management applications unlike any other ERP solution on the market today.

### STREAMLINE OPERATIONS

**Manage your business more efficiently:**

- Automate processes
- Control workflows
- Access the system from anywhere on any device—including mobile
- Promote collaboration with all-inclusive user licensing

### ADAPTABLE SOLUTION

**Add and extend:**

- Deploy in-house or in a private or public cloud
- Easily configure your solution to fit your needs
- Add capabilities such as CRM or data visualization at any time
- Extend to other solutions and applications beyond ERP

### YOUR BUSINESS ACCELERATED

**Get a single version of the truth:**

- Accelerate business performance and make smarter decisions with automated processes, real-time data collection, financial analyses, and forecasting
- No per user pricing – system scales as your business grows
